

Preparing your work for installation:

Wall Artworks:

Ask yourself, *is my artwork framed or unframed?*

Framed or Canvas:

If your work is hanging on the wall you need to attached D rings or Triangle rings. Please follow the below instructions:

DO USE:

1. D rings
2. Triangle rings
3. Nylon cord

DO **NOT** USE:

1. Wire
2. Eyelets
3. Staples

Unframed:

If your artwork is unframed, ask yourself 'how is it going to hang?' Please provide hanging devices such as bulldog clips.

Sculptures:

If your artwork won't be hanging on a wall, and instead will be on a plinth you **MUST** get in touch with me and let me know so we can discuss organising one of the correct size for you.

You must ensure your sculpture is stable and will be able to stand alone.

Installations:

If your artwork is an installation you **MUST** prepare install instructions.

If your artwork requires hanging from the roof please get in touch so we can discuss details – we will have to arrange this with the gallery.

If your artwork is one that the viewer can interact with, ask yourself - 'is it safe for a person to interact with my artwork?'

Videography:

If your artwork requires AV equipment you must let me know sooner rather than later so we can get this sorted.

Performances:

Are you performing on opening night?

Please let me know the length of your performance and how much space you require.

Questions? Unsure?

Feel free to email me and I will do my best to help – swaotearoa@gmail.com
